NEW SERIES NO. 68

MEINE TO SPEAK AT CONVOCATION ON AUGUST 4TH

Classes Will Be Dismissed For Meeting In Me-morial Hall At 11 A. M.

SPEAKER IS STUDENT OF AMERICAN HUMOR

Final Convo On August 13 To Have Forestry Expert As Lecturer

Franklin J. Meine, noted author and lecturer, will be speaker at the second convocation of the final term of the Summer Session at 11 a. m. Wednesday, August 4, in Me-

Classes will be dismissed at 11 a. m. so that students will have an opportunity to hear the lecture.

Mr. Meine is the author of two books, "Tall Tales of the Old Southwest," and "Mike Fink, King of the Keelboatmen." He has written numerous biographical sketches of American humorists.

Mr. Meine has been awarded the Guggenheim fellowship to study the basis of American humor. He is investigating the period of American humor from 1830 to 1860.

Possessor of what is termed by Dr. T. D. Clark, assistant professor of history, as "one of the finest collections of American humor in the country", Mr. Meine is well known both as a lecturer and a writer. He will be introduced at the con

vocation by Doctor Clark. Following the lecture of Mr. Meine, only one more convocation is scheduled for the second term. Dr. Herbert N. Wheeler, chief lec service, will address the students at 9 a. m. on August 13.

The first convocation of the second term featured the music of the Utica Jubilee singers who presented Negro spirituals and southern songs Friday, July 23. Four general convocations were held during the first term, the speakers being Dr. Frank L. McVey, president of the University; Albert B. Chandler, governor of Kentucky; Dr. George Strayer, Columbia university professor, and Dr. Harry Barnes, vis iting lecturer in history.

Louisville Firm **Gets Fixture Bid**

Authorities Claim Enrollees For Short Courses Will Bring Total Past Record 1,034

SHORT COURSES BEGIN ON NEXT WEDNESDAY

High Enrollments Lead Offlcials To Expect Record In the Fall

With 1,005 students enrolled for the second term when the regular registration period closed Monday afternoon, it is considered highly likely by the Registrar's office that the all-time second semester high will be shattered when signing for the short courses begins

The record final term enrollment was set in 1935 when 1,034 students signed. This included the short courses. This Summer's final semester enrollment of 1.005 without the short courses makes the breaking of the record highly probable. Because of the registration system used by the University it is impossible to determine how many of the 1935 students signed for the short

Registration for the short courses will be held on August 4. The courses, principally in the College of Agriculture, will last for two and one half weeks.

Enrollment for the first term of the summer session reached a rec-

U.K. Listening Centers Doing Noble Work

Perhaps not well known to the average University of Kentucky student, and to the citizens of

the state, is the noble work being carried on by the University Listening Centers.

Established seven years ago under the direction of Elmer G. Sulzer, University publicity director, they have grown until today they are receiving international recognition. They are reputed to be the "only Listening Centers in the world." Many nationally known magazines have carried articles relative to these Centers, appropriately giving credit to the University of Kentucky for taking this step forward.

Serving 24 communities in the mountains of Kentucky at the present time, the posts are part of a plan of Mr. Sulzer, "godfather of the Centers," to bring education to people in this state who have never before had the opportunity to make contact with the outside world.

This plan deserves much recommendation from the people of this state, for it is bringing to the attention of the United States the progressive attitude of this University. It is unfortunate that finances limit and handicap more rapid growth of these Centers. They are financed entirely through voluntary contributions, which though always welcome, are uncertain.

The Kernel sincerely hopes that authorities can work out a plan which will put the U. K. Listening Centers on a permanent basis.

This Campus That World By RALPH E. JOHNSON

Gang-Way! Here comes that sore head again. Back again, for a brief interlude, after a fine six weeks of rest, peace and quiet at home. But just to prove that the rest has done me no good whatsoever and that there are still things I can gripe about, I, with the reluctant insistance of Ross Chepeleff, submit the following bitter dose-(Author's note).

While a great portion of this column will be slightly ahead of time, there are certain lessons that can be drawn from the realization of the point I hope to be able to make.

It seems that my sister has a boy friend who attends Yale University. Oh, he's a swell fellow and all that, but he just doesn't understand how the rest of the world lives. Perhaps, until we had a talk this summer, he never had stopped to Ellis, the rest of the bill. Thursday consider that students at the University of Kentucky could have a good time at all. Primarily, Pauper," and Lloyd Nolan and that was about all he was interested in knowing | Claire Trevor in "King of Gambabout when he learned to his surprise that I went to the University of Kentucky.

"University of Kentucky?" he questioned.

"Yes." I replied proudly, and told him where it was and so forth. I recalled that he had invited my sister to the Yale Prom and so that was what we talked about. The Yale Prom was quite a "can can," as George Kerler would say, and it lasted until three bells.

I explained how poor, relatively speaking, students in the south are. Which lead to his asking me how much it would cost me to take a girl to the Prom down here. That amazed me! "Nothing," I said.

That answer didn't suit him. He knew it cost something, so he asked what it would cost to entertain a girl for the weekend.

"Put her up in a hotel 'n' everything?" I sug-

Well at first I couldn't imagine how anyone could possibly spend more than 10 to 12 dollars in such a case, but then again I knew there must be some wild boys who could squander between Deitrich and Robert Donat. 20 and 25 dollars. So I suggested that even if a fellow went hog-wild lost his rhyme and reason, he couldn't spend more than \$25.

It was "Yale boys" turn to be amazed! And he asked if that figure would include cock-tail parties and everything. Oh yes, everything I told him-U-Drive-Its, flowers and bromo-seltzer.

But the point is this. The Yale boys have to keep up with the Cabots and Lodges who attend Harvard and those conniving gentlemen who tread lightly on the Princeton campus. So up there it is a sure sign of something or other (affluence, influence) when one boy can out do the remaining ones. other in spending dough to the best advantage, and the best advantage will be that advantage which makes the biggest show.

Down south we'uns is looking with envious eyes at the slap-happy hooligans who so blightly, carelessly, uselessly cast their good father's hard earned dough on the waters and before swine. They, each one of them, are not one bit happier | course of action. Their balloons in their prom than we, who have had Little Jack Little, are. Immeasureably better off are we in stones. our simplicity, and with less of that pseudo-culture and conceit that so impresses the "Yale boys" with their own importance.

New York U. Will Study Causes Of Suicides

New York, N. Y .- Why people commit suicide will be studied in a one-year research project by the New York University college of medicine, it was announced by Dr. John Wycoff, dean of the college.

The study of self-indicted deaths in the New York area will be supervised by Dr. Nathaniel Ross, assistant clinical professor of psychiatry in the college.

"Although approximately 30,000 persons commit suicide annually in the United States, we still know comparatively little about the problem." said Dean Wyckoff.

"Suicide, per se, is not necessarily a disease but does occur frequently in a number of mental conditions and, therefore, might be prevented.

"The purpose of our research will be the study of suicide of adults and children from the point of view of manifestations, frequency of occurrence, and the social background of individual affected by suicidal tendencies.—Clemson Tiger.

Six Operas In Sixth and Last Of Cincinnati Summer Opera

current opera season at the Cincinnati Zoo Garden opens Sunday, August 1, with "Faust," Gounod's musical adaptation of Goethe's epic Luigi Dalle Molle tragedy. Norman Cordon heads the cast with his inimitable personation of Mephistopheles, and Dmitri Onofrei and Santa Biondo sing the roles of the lovers, Faust and Marguerite. Joseph Royer portrays Valentin, with Charlotte Bruno as Siebel and June Buriff as Martha. "Faust" will be repeated Friday, August 6.

Another performance of "Carmen" will be given Tuesday, August 3, with Maru Castagna as Carmen, Harold Lindi as Don Jose and Joseph Royer as Escamillo-the same cast which drew the largest attendance in the history of Cincinnati Summer Opera earlier this Norman Cordon, Luigi Dalle Molle, Virginia Johnson, June Buriff, Lodovico Oliviero, and Charlotte Bruno are also in the cast.

Angelo Pilotto's powerful characterization of the hunchback jester, Rigoletto, will be featured in the opera "Rigoletto" Wednesday, August 4. Rosemarie Brancato will sing as Gilda, with Dmitri Onofrei as the Duke of Mantua, Nomran Cordon as Sparafucile, and Maru Castagna as Maddalena.

"Il Trovatore" drew one of the many capacity audiences of this summer's season, and it will be repeated Thursday, August 5, with Fidelia Campigna in her brilliant interpretation of the role of Leonora, Jose De Gaviria will sing the role of Manrico Angelo Pilotto as the Count Di Luna. Azucena will be enacted by Maru Castagna, Ferrando by Norman Cordon.

The last double feature bill of the season will bring the brilliant 1937 season to a close, Saturday, August tired.
7 "Cavalleria Rusticana" will be "W paired with its perennial running mate, "Pagliacci." In the first opera Maru Castagna, Harold Lindi, Joseph Royer, Charlotte Bruno, and

What Is Swing? Relaxed Rhythm, Says Red

By HOWARD DAVIS

"That's what I call 'waddling with a shuffle'," said Red Norvo back of the band stand recently during inday when we were crossing he was asked to describe those movements that Mildred Bailey was doing on the bandstand between choruses for Senior Ball goers.

"Listen, Norvo, you're just jealous that you can't do the same," replied Mildred Bailey

At this point Norvo's face became about as red as his hair. He looked at your reporter, then at Mildred, and then burst out laughing, saying, "Well I guess we will cross that one off the record."

Norvo sat down in a big arm chair beside the bandstand. He looked

"Whew! That bunch really likes to swing out there on the dance floor," said Norvo.

"What is 'swing'," your reporter asked Norvo.

Red looked over again at Mildred and said, "He's really got us, there, eh Mildred? Oh, I don't know-1 guess you could call it a relaxed rhythm a facile flow of syncopa tion with unbroken tempo, but don't quote me on that."

Just then the Campus Owls started playing their theme song. When he was told that a fellow in the band wrote the piece, he said, "One huming a catchy phrase of mel-Brooklyn bridge, Mildred started humming a catchy phrrase of melody. I jotted it down on an envelope and after I got home, I worked on it awhile. Today we use it as our theme song, although it has no

title as yet." "I'm going down to listen to the Owls, Red. Coming along?'

"Sure. Well, see you again some time." -Miami Student.

To break the tension before a recent examination, a Miami University professor joshed the boys a little. After passing out the questions he said:

"Gentlemen, this examination will be conducted on the honor system. Please take places three seats apart in alternate rows."

SONDRA RODGERS

Sondra Rodgers, well-known actress of the English and American stages, and radio, will direct a series of broadcasts from the University of Kentucky radio studios, it was recently announced. Seven programs will comprise the series which will start Thursday, July 29, and bear the title "Answer Me This."

Coincidentally, Miss Rodgers, a native of Kentucky, inaugurated her stage career in the stage play "Riddle Me This." Several seasons ago she appeared as guest star at the Pasedena Playhouse, where at the present time, Frank Fowler, director of the University Guignol theatre, is guest director.

Miss Rodgers, through her family, is closely associated with the University of Kentucky, four brothers and one sister having attended school here. She has had wide experience in broadcasting having appeared on both foreign and domestic net-works, and has made recordings of many programs

Prof. Shows Symballophone Successor To Stethoscope

The "symballophone," successor to the physician's stethoscope, was demonstrated by Dr. William J. Kerr of the University Medical School, its inventor, before the last meeting of the American Medical Association in Atlantic City, New Jersey. The "symballophone" has already achieved nation-wide attention because of its abilities to record a number of body murmurs and other sounds simultaneously and thus greatly facilitate and strengthen the original diagnosis of

This mechanical short cut to the heart of many human complaints, was developed by Dr. Kerr after long experimentation with tuning associated with medicine. The device has two sensitized discs. One cord goes directly from the disc to the ear. The other branches off to the opposite cord and the opposite ear. Through a series of adjusteously any differing chest, bron- building.

chial or other sounds and also to note the difference in intensity of such sounds. These differing sounds are brought to the ear without any apparent interference, one with the other. The ordinary stethoscope can detect only one sound at a time, and the important factor of difference in pitch or density between sounds is often lost because of this

Dr. Kerr's instrument immediately localizes the complaint, allows for an immediate investigation and diagnosis of sound difference and intensity, and generally short-cuts the whole diagnostic process.

While he states he has no interes in the matter, Dr. Kerr said that the "symballophone" might find a number of uses outside of medicine, particularly in the detecting of unusual, subdued sounds in machinery No experiment has been made in this regard, except with the tuning forks, but some informal inquiries sibilities of the device as a sound detector in industry.

"Present Age Is Lost | Article On Visual Aids Is Released By Gayle Starns

The utilization of motion pictures and slides in teaching, is summarized by Gayle Starns, assistant director, department called the "Lost Century" by fu- University Extension, University of Kentucky, in a publication "The the use of visual aids," just off the

> Since the first course in visual instruction was offered only fifteen years ago, Starns characterizes the movement as still "in the pioneer stage," with little material to guide the instructors.

Starns' work is based upon replies o questionnaires received from one in the year 2000, attempting to hundred and forty institutions. Eighty of these offer courses on visual aids. These eighty instituof this period completely blotted tions include twenty-five teachers' colleges, twenty-one liberal arts colleges, twenty-one municipal and private universities, and twelve state universities. While in 1921, less than three courses in visual instruction had been given by these institutions, in 1936 the figure had reached eighty.

The publication includes an appendix, a suggested outline for a course of study in visual education. Starns calls attention to the rapidly tral Kentucky counties practiced increasing recognition accorded vislivestock judging Friday and Sat- ual aids as a form of instruction, urday on the University campus in and recommends that all prospective teachers in visual education be required to take at least one course in the subject.

A previous publication of Starns, issued a year ago by the department of University Extension was titled "Motion pictures in education"

Professor Campbell Publishes Bulletin On School Service

The legal principles of public school administration as derived from court decisions, is dealt with in "The influence of court decisions in shaping the policies of school administration in Kentucky", a bulletin of the University of Kentucky Bureau of School Service, just off the press. The author is Professor George W. Campbell, superintendent of Schools, Corbin.

"In spite of constitutional provisions and legislative enactments defining the powers of boards of education and school administrators" says Professor Campbell, "Much litigation has arisen over the administration of the public schools of the commonwealth...The study does not purport to be a means for getting out of entanglements over matters of school administration, but contemplates a means of avoiding many of the difficulties in which school authorities are so often involved.'

Professor Campbell's work treats of "The Kentucky theory of the relationship of the state to education", "The legal status of school districts and their boards of education", "The legal status of pupils" "The legal status of teachers", "The legal status of school property", 'Legal basis of school support", and The school debt".

A summary of the findings of Professor Campbell's study and a bibliography conclude the publica-

Assyrians In 2800 B. C. Longed For 'Good Old Days'

Syracuse, N. Y. - Sermons of today's "gloomsters," who view the world "with alarm," are much like those preached scores of centuries

So said Dr. Frederick C. Perry, president of Hamilton College, on the basis of writings taken from an Assyrian tablet, dated 2800 B. C.

"The earth is degenerating in these later days," reads the an-cient stone slab. "There are signs that the world is speedily coming to an end. Bribery and corruption abound.

"The children no longer obey their parents. Every man wants to write a book, and it is evident that the end of the world is speedily approaching."
